

The Artist Vision

"The Artist Vision" is a special level of design for the client who is extremely art oriented with an open mind. A consultation will be held in your home or studio and your personality profile is created noting your specific interests. From this point forward the client agrees to release all control in the image creation process to L. Andrew Sterling. Next they discuss the space where the client wishes to hang the art and observations are made to ensure proper sizing of the art piece relative to the space. The location, mood, accessories & clothing etc... are all directed by L. Andrew's conceptual vision, Usually these creative sessions last 3.5 hours. With hair & make-up artist present when necessary. It is important to understand that due to the nature of the artist's vision, all decisions will be made by L. Andrew, including image and artwork for the final presentation. "There are also no guarantees that the client's face is 100% visible. This imagery will be filled with symbols, emotion more importantly exposing their heart & soul.

"One does not buy materials & labor from an artist but, rather their vision"
